KIMPTON

Carbon Reduction Plan

Reporting period - Oct 2025 - Sep 2026

Compliant with PPN 006

1

Introduction

This report is a formal Carbon Reduction Plan compliant with the requirments of PPN 006

Supplier name

Kimpton Ltd

Publication date

27/10/2026

2

Commitment to achieving Net Zero

Our long-term commitment to reaching Net Zero emissions.

2040

Kimpton Ltd is committed to achieving Net Zero emissions by 2040. We have set this target in accordance with the SBTi's Corporate Net Zero standard.

3

Baseline emissions

Emissions in our baseline year.

Baseline year

Oct 2024 - Sep 2025

Additional details

Our baseline year is the period from Oct-24 to Sep-25. Despite measuring our emissions since 2024, Oct-24 to Sep-25 was the first year in which we completed a fully-compliant, comprehensive footprint covering all areas of Scope 1, 2 and 3, with the support of a third-party (Seedling).

As a result, this forms our baseline from which future progress can be measured consistently.

Baseline year emissions

EMISSION CATEGORY	TOTAL (T CO2E)	ADDITIONAL DETAILS
Scope 1	121.02 t CO2e	Gas and aircon use at our site and use of company vehicles
Scope 2	7.97 t CO2e	Electricity use at our office
Scope 3 (required)	155.29 t CO2e	See below
Total (required)	284.28 t CO2e	

Required Scope 3

EMISSION CATEGORY	TOTAL (T CO2E)	ADDITIONAL DETAILS
3.4 Transportation and distribution (upstream)	23.37 t CO2e	Shipping of materials and products used in business operations
3.5 Waste generated in operations	87.53 t CO2e	Waste generated at our office and client sites
3.6 Business travel	0.35 t CO2e	General business travel to client meetings
3.7 Employee commuting and remote working	44.04 t CO2e	Primarily commuting to our office by car
3.9 Transportation and distribution (downstream)	0.00 t CO2e	n/a - we do not sell products

Additional categories

EMISSION CATEGORY	TOTAL (T CO2E)	ADDITIONAL DETAILS
3.1 Purchased goods and services	3,273.21 t CO2e	Primarily construction, installation and maintenance services and materials
3.2 Capital goods	274.62 t CO2e	Primarily electrical items and machinery/ equipment
3.3 Fuel and energy activities	3.14 t CO2e	Gas and electricity well-to-tank

4

Emissions reporting

Our current reporting-year emissions

Reporting year

Oct 2025 - Sep 2026

Current year emissions

EMISSION CATEGORY	TOTAL (T CO2E)	ADDITIONAL DETAILS
Scope 1	112.36 t CO2e	
Scope 2	4.90 t CO2e	
Scope 3 (required)	85.73 t CO2e	
Total (required)	202.99 t CO2e	

Required Scope 3

EMISSION CATEGORY	TOTAL (T CO2E)	ADDITIONAL DETAILS
3.5 Waste generated in operations	0.36 t CO2e	
3.6 Business travel	0.37 t CO2e	
3.7 Employee commuting and remote working	57.19 t CO2e	

Additional categories

EMISSION CATEGORY	TOTAL (T CO2E)	ADDITIONAL DETAILS
3.1 Purchased goods and services	6323.55 t CO2e	
3.3 Fuel and energy activities	27.81 t CO2e	

5

Emission reduction targets

Our emission reduction targets and progress date.

SBTi Net-Zero target

Kimpton Ltd commits to reduce Scope 1 and 2 only emissions by 90% by 2040 from a base year of 2025

SBTi near-term target

Kimpton Ltd commits to reduce Scopes 1 and 2 emissions by 63% by 2035 from a base year of 2025

Scope 3 intensity target

Kimpton Ltd commits to reduce Scopes 3 emissions on a per employee basis by 97% by 2050 from a base year of 2025

6

Carbon reduction projects

Our plan for reaching Net Zero

These measures are in effect when performing the contract.

Implemented initiatives
Accurately capture emissions from employee business travel through adding fuel usage and vehicle type
Provide electricity requirements of our site through solar power
Implement a salary sacrifice scheme for EVs
Switch to using refurbished phones and iPads
Reduce emissions from logistics through route optimisation
Provide electricity requirements via installation and use of solar panels
Implement a Cycle to Work Scheme
Improve waste segregation in the office
Utilise manufacturer and supplier take-back schemes

In the future we hope to implement further measures such as:

Planned initiatives	
Work with construction and installation and maintenance suppliers to measure and reduce their emissions	January 2035
Explore transitioning to using recycled metal materials in operations	January 2035

Planned initiatives	
Work with construction and installation and maintenance suppliers to measure and reduce their emissions	January 2035
Explore transitioning to using recycled metal materials in operations	January 2035
Explore transitioning to using re-used wood materials in operations	January 2035
Explore switching diesel / petrol vans to electric	January 2035
Switch to using recycled plastic materials in business operations	January 2035
Conduct annual energy efficiency audits	January 2027
Work with logistics partners to continue using more sustainable vehicles and improve route efficiency	June 2035
Improve on the accuracy of our footprint by adding more accurate data on the weight and type of materials being used in operations	June 2035
Replace gas boiler with an electric heat pump	January 2028
Optimise heating/cooling controls	January 2028

7

Declaration and sign off

Confirmation of compliance and board approval.

This Carbon Reduction Plan has been completed in accordance with PPN 006 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard and uses the appropriate government emission conversion factors for greenhouse gas company reporting.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors.

Signed on behalf of Kimpton Ltd:

Name and position

Tim Davis, Managing Director
